

EPSCoR Project WiCCED

Fall 2022 Virtual Seminar Series

~ featuring postdoctoral researchers and graduate students ~

Wednesday, September 7, 2022 @ 11:00 AM-12:00

Anner Paldor

Postdoctoral Researcher, Earth Sciences

“Multi-scale sea-level forcings and their impacts on coastal groundwater resources”

Sean Fettrow

DENIN Graduate Fellow, Plant & Soil Sciences

“Salt Marsh Migration into Forests and Farms: Effects on Soil Biogeochemistry Along the Salinity Gradient”

of DELAWARE

EPSCoR Project WiCCED

Fall 2022 Virtual Seminar Series

~ featuring postdoctoral researchers and graduate students ~

Wednesday, October 5, 2022 @ 11:00 AM-12:00 PM

Lusi Xie – University of Delaware

Postdoctoral Researcher, Applied Economics & Statistics

"Buying Back Irrigation Water for Endangered Species Protection: Evidence from a Laboratory Experiment and a High-Stakes Field Experiment with Farmers"

Antonette Todd – Delaware State University

Post-Doctoral Researcher, Molecular Genetics

"Understanding Effects of Salinity Uptake in Marsh Grass (Sporobolus alterniflorus) Along Delaware Beaches"

EPSCoR Project WiCCED

Fall 2022 Virtual Seminar Series

~ featuring postdoctoral researchers and graduate students ~

Wednesday, November 2, 2022 @ 11:00 AM-12:00

Rachel Housego

Postdoctoral Researcher, Earth Sciences

“Impact of Ocean Surge Profiles on Overwash-Driven Salinization in Coastal Aquifers.”

Paula Cardenas Hernandez

DENIN Graduate Fellow, Civil & Environmental Engineering

“Predicting the Rate Constants of Explosives Reduction by Ferruginous Soil Constituents.”

Zoom Link:

Fall 2022 Virtual Seminar Series

~ featuring postdoctoral researchers and graduate students ~

Wednesday, December 7, 2022 @ 11:00 AM-12:00

Chunhao Guo

Postdoctoral Researcher, DENIN
***“The impacts of sea level rise on
phosphorus cycling in coastal soils”***

Mary Hingst

DENIN Graduate Fellow, Earth Sciences
***“Impact of Surface Water-Groundwater Connections
on Saltwater Intrusion near Dover, DE”***
